

History of Desktop Publishing, Website Groups:

Each group is responsible for filling in information on their assigned topic on the History of Desktop Publishing Website. Each group must fill in their page with the following minimum requirements: 2 images which are relevant to your time frame, 3 paragraphs or similar (you can use lists as well) about your time frame which include stats, figures and dates!

Also, at the bottom of your page include your name, three sentences which describe you as a person (hobbies, interests, family, friends...) and an image to go along with your write up. This will allow us to get to know each other.

Assigned Groups:

Groups were assigned in class and you should be sitting at a table with your group.
