

Create Your Own Page, HTML & CSS

Directions

Using the resources linked below create your own Web page in Text Edit. Your page can be on an appropriate topic of your choice and follow any layout you feel comfortable building (but must include the elements listed in the rubric.) Use the application TextEdit to build your file.

To Submit

Take a screen shot of your code in TextEdit (you may need to take more than one screen shot to fit in all the code) and a screen shot of your page in a Web browser. Insert all of the screen shots into a Google Doc titled, "Name of Class, My own Web page"

Resources to Help You

1. New Balance Re-Create page, file on your local drive
2. Reset.css, <http://meyerweb.com/eric/tools/css/reset/>
3. Skeleton for Start of HTML and CSS page, http://mrscullen.com/images/web_skeleton.pdf
4. HTML Handbook, http://mrscullen.com/images/htmlhandbook_bysu.pdf
5. CSS All Versions, <http://www.w3schools.com/cssref/>

Example
